New Depots and Warehouse 19 July 2021

It is with great excitement that Sprint Freight and Logistics announce we have taken control of Town and Country Freighters Adelaide and Port Pirie operations and depots.

Sprint will continue the Adelaide Warehousing and freight services to the Spencer Gulf Region with deliveries to Port Pirie, Port Augusta, Whyalla, Crystal Brook and surrounding areas.

All Town and Country customers can be assured that we will continue to service these areas with the same or better service that you have come to expect with the biggest change being the name change.

Sprint Freight and Logistics is a family-owned South Australian business and is a part of Lochert Bros Pty Ltd. Lochert Bros has been trading for over 50 years and the family has been in the transport business for over 70 years, with the fourth generation now working in the business.

Sprint Freight and Logistics has experienced significant growth during the last 10 years and now offers a freight service that can deliver almost anything to almost anywhere in South Australia and Western Victoria. The acquisition of Town and Country Freighters, Adelaide and Spencer Gulf operations is a strategic step in growing our South Australian network and warehousing capacity. More information on our business and service locations can be found on our web page at www.sprintfreight.com.au

We will over the coming months integrate the Town and Country operations into our existing operations and we will be consolidating all of our Adelaide operations into one location, the new depot at 19 Watervale Drive, Green Fields SA 5107.

Starting from Monday 19th of July our Depot receivals will be transferring to 19 Watervale Drive Green Fields. We will continue to accept deliveries at our Wingfield depot up until Friday the 16th of July allowing people time to notify their suppliers. From that date onwards all deliveries must be to our new Green Fields depot. Please advise your suppliers of this change as soon as possible.

This new facility will provide us with the room that Sprint Freight and Logistics requires to expand and continue to provide the high level of service that our customers have come to expect.

For further information please feel free to contact me.

Regards

James Lochert
