Re: Sprint Rate Increase

31st July 2026

Dear Valued Customer,

For many years, Sprint Freight & Logistics has remained committed to providing dependable, responsive, and high-quality transport and logistics solutions. We sincerely appreciate the trust and loyalty you continue to place in our team, and we value the partnerships we have built with each of our customers.

To continue delivering the level of service, reliability, and professionalism you have come to expect from Sprint Freight & Logistics, we wish to advise that our **freight rates will increase by 6%, effective 1st September 2026**. There will also be an adjustment to carton cubic allowances to better align with freight handling and charging methodologies. Additionally Dangerous Goods (DG) fees will be updated to reflect the additional compliance, handling, and safety requirements associated with transporting regulated freight.

This decision has not been made lightly. Like many businesses across the transport and logistics industry, we continue to experience significant increases in operating costs. Over the past year alone, we have seen:

- Minimum wage increases approaching **5%**
- Higher superannuation contribution rates and increased contribution frequency requirements
- Maintenance and vehicle consumable costs increase by approximately **10%**
- Electricity costs rise by almost **20%**
- Increased commercial rental expenses
- Higher financing and interest costs
- Ongoing inflationary pressures across virtually every aspect of our operations

While we have worked hard to absorb as many of these increases as possible through improved efficiencies and careful cost management, it is no longer sustainable for us to do so without impacting the quality of service we provide. Rather than compromise on reliability, investment in our people, fleet, and customer service, a modest adjustment to our pricing has become necessary.

We understand that any increase in operating costs can have an impact on your business, and we genuinely appreciate that many of our customers are facing similar challenges. Transparency has always been important to us, and we believe it is only fair to communicate these changes openly and with as much notice as possible.

Our commitment remains unchanged. We are working hard to improve and expand the service, and processes we offer to ensure Sprint Freight & Logistics delivers the dependable, flexible, and personalized service that has enabled us to become the leader in regional Express deliveries in South Australia. We also offer additional services of Warehousing, 3PI services, container destuffing and collection from port. We are happy to assist your business with these services where there is a need.

We greatly value your ongoing support and partnership and thank you for your understanding. Should you have any questions regarding this adjustment or wish to discuss your account, please don't hesitate to contact your Sprint Freight & Logistics representative.

Kind regards,

Sprint Freight and Logistics - Management team
